*Ref Case # 2013-00332*

Dear Sir:

I am a resident of Old Bridge Subdivision in Danville, Ky. I am the Magistrate for this area as well as VP of our neighborhood Association. I have had numerous complaints about AmeriGas Application to discontinue gas service via the present pipeline and replace with above ground or underground tanks on each lot. I am really at a loss for words about this proposal, to me it's just plain stupid. We have paid dearly, \$500.00 to \$1,000.00 to have lines run to our homes, now they want to bury tanks or put above ground for no good reason, other than their profit margin.

I like, many others in Old bridge am opposed to this. I would also like to point out that in section 5 of Old Bridge Deed Restrictions, **No tanks above or below ground are allowed.** How would you propose to get around this deed restriction. I had always thought it was a deed restriction for the entire neighborhood. I would think since this covers a good deal of this neighborhood, it would make it impossible to grant this request by AmeriGas.

If one isn't already planned, I would request a public hearing be held on this issue and ALL RESIDENTS of Old Bridge be notified via Certified Mail.

Sincerely,

H. Jack Hendricks, Magistrate Boyle County 4<sup>th</sup> district

VP OB Neighborhood Asssoc.
